—the main business thoroughfares of the city—and skating into the business hours when they had occasion to enter them. Many an embarrassing situation was narrowly averted and many a head were kept unbumped.

From 12 o'clock yesterday, the temperature remained firm at 20 degrees above zero until 1 o'clock this morning, when it began to rise. At 9 o'clock this morning it had reached the 25-degree mark and at noon the thermometer registered 32 degrees above zero.

By the use of salt on the walks in the business part of the city, the sidewalks were made fairly passable by noon today.

Twenty-seventh street, between Adams and Jefferson avenues, was fully utilized this morning by old and young as a toboggan slide, and it was surely great. Men, women and children assembled there in the early morning hours and took the slide of boards. All sorts of things were used as sleds—trunks, shovels, pliers of boards, rawhide, or anything that had a smooth surface. The street was as smooth as an ice pond and the slide was easily made from Jefferson nearly to Washington avenue, two blocks, without a stop.

New Theater Adds Conveniences

The reception rooms and lobby of the New Ogden Theater will be finished for tomorrow's performances of the "Girl at the Helm." Everything is being done to make the holiday attractive a notable one. Society will find every convenience necessary in a first-class theater. Colored attendants will have charge of the reception rooms.

The box office will be ready for sale Saturday.

## SIDEWALKS A GLARE OF ICE

RAIN TURNED TO ICE AS IT FELL THIS MORNING.

People Kept in the Middle of the Road—Women and Men Went Coast-ing in Dishpans.

It was "the middle of the road" this morning for nearly all the Ogden pedestrians, as a matter of necessity and a precautionary step for the preservation of life and limb.

The sidewalks were perfect skating places, but no one, except small boys, had skates. In the early hours, the temperature in the higher atmosphere was high enough to cause rain, but when the rain reached the earth, particularly the frozen pavements, the temperature was so low that the rain froze into ice the moment it struck. The result was that, by the time the people began to move about, the pavements were covered with a thin layer of ice that rendered walking impossible.

All took to the middle of the road where they could find safer footing on the snow that had been cut up somewhat by the sharp calks of horses' shoes.

It was really amusing to see the many people walking in the middle of the road along Washington avenue. Twenty-fourth and Twenty-fifth streets

Through a mistake, it was announced yesterday that our stores would be open Saturday, New Year's Day. This, however, was a mistake, as both of our stores will be closed all day tomorrow.

We are glad to have this opportunity to give to our many willing workers a chance to celebrate the coming of the New Year. We also wish to thank our patrons for the preference they have shown to our store during the past year. We wish them all a prosperous and Happy New Year.

## WHAT IS ICE CREAM?

Chicago, Dec. 31.—"What is ice cream?" This query is likely to become as famous in Chicago as President Taft's "What is whiskey?"

The newly appointed state food commissioner, with Dr. T. J. Bryan, state analyst, began their sessions here yesterday and ice cream and evaporated milk are the first two subjects to be considered.

The question to be decided is whether the frozen delight containing gelatine is "ice cream." Gelatine, say the manufacturers and their experts, does not harm the product, but on the other hand adds to its nutrition. Therefore, they wish to use gelatine as a preservative in ice

## ALLEGED BOX-CAR ROBBER COMES HERE

Henry Doran, believed to be the leader of a clever band of box-car robbers, who have been operating in this city for the past three weeks, was brought to Ogden yesterday from Salt Lake City, where he was arrested by Salt Lake officers. Detective Joe Jones of the Oregon Short Line brought the prisoner to Ogden. Doran is believed to have been responsible for several box-car thefts and upturn burglaries committed in Ogden during the past few weeks.

## SALARY OF GOVERNORS.

Do you know how much salary is paid to the governors of the several states?

Well, then, do you know how much is paid to the governor of Utah?

Now that the teachers are here in convention there really shouldn't be anything left unknown.

Governor Sperry gets four thousand dollars a year. And it is the judgment of those who have watched him so far that he earns every penny of it.

Six governors in the United States get considerably more. They are, respectively, the governors of California, Illinois, New Jersey, New York, Ohio and Pennsylvania.

Governor Deneen of Illinois gets the biggest pay of any. He receives twelve thousand dollars a year. The rest of these named get ten thousand dollars.

Nine governors get less than does the chief executive of Utah. They are, respectively, the governors of Maine, Nebraska, New Hampshire, North Dakota, Rhode Island, South Dakota, South Carolina, Vermont and Wyoming. The governors of Wyoming and Nebraska each is paid twenty-five hundred dollars a year. Massachusetts pays her governor eight thousand; and it is the only one in the republic paying that sum, unless you except Porto Rico, the governors of which province receives the same—eight thousand dollars a year. New Mexico and Arizona each pays three thousand dollars. Alaska and Hawaii—which is pronounced with a "y," you remember—each pays five thousand.

There—have you learned anything?—Herald Republican.

## ASYLUM MANAGEMENT IS ROUNDLY SCORED.

Guthrie, Okla., Dec. 30.—Ill-treatment of patients, lack of heating facilities, unsanitary conditions, untrained nurses and attendants and negligence on the part of the superintendent are charged in a letter to Gov. Haskell on conditions in the State insane asylum at Fort Supply, made today by Miss Kate Barnard, state commissioner of charities and corrections.

## STEAMER IN DISTRESS.

Beaufort, N. C., Dec. 30.—The Southern Pacific line steamer Excelsior, Capt. Birney, which sailed from New York for New Orleans, is drifting about forty miles north of Diamond Shoals lightship, showing two black balls, the signal that she is not under control.

# DIVIDENDS OF LOCAL BANKS

The directors of the First National bank met yesterday and declared a regular dividend of 3 per cent and an extra dividend of 6 per cent, making a total of 18 per cent for the year.

With profits so generous and a large surplus undistributed, the First National bank stock is now quoted at \$325 a share, with none to be had at that price.

The day before the Ogden Savings bank declared its dividends, totaling for the year 16 per cent.

## MORE CANADIAN TYPHOID.

Montreal, Dec. 30.—Thirty new cases of typhoid fever and three additional deaths from the disease were reported to the health officers today. An emergency meeting of the civic health committee has been called to formulate plans for combating the epidemic.
